

## PACE OF PLAY RECOMMENDATIONS

### BEFORE PLAY:

- Arrive early and check in with Starter
- Allow time to use the driving range and putting green
- Partner up and get equipment into a shared cart
- Be ready to proceed to the tee when called
- Know the basic rules of golf and golf etiquette

### ON THE TEES AND FAIRWAYS:

- Play "Ready" golf – go directly to your ball and hit as long as no one is in your way or you put someone in danger
- Cart Driver – go directly to your passenger's ball and drop them off and immediately proceed to your own ball. Hit your ball and return to pick up passenger
- Cart Driver – park the cart halfway between your and passenger's tee shot and both golfers walk to their ball and play second shot. Continue this until ball is on or around green
- Take three or so clubs to ball when walking from cart. This will allow you options in case you miscalculated yardage, wind or lie
- Minimize practice swings and waggles
- Hit a provisional ball if you think your ball is lost or out of bounds. Limit search for ball to two minutes if possible

### ON THE GREENS:

- Putt away – if you are ready to putt and won't step onto someone's line
- Continuous putting – once you start putting, continue until ball is holed – only if you can do it without stepping onto someone's line of play
- Line up your putt while others are putting
- Mark your ball – only if it is dirty and you want to clean it or it is in the way of another ball
- Park the cart – on cart path on the way to the next tee box
- Proceed to next tee immediately after putting out. Write scores down on next t-box

REMEMBER - PACE OF PLAY IS MEASURED BY HOW WELL YOU ARE KEEPING UP WITH THE GROUP IN FRONT OF YOU!
